PROPERTY PORTFOLIO

ACEO SPIRITS WHISKY CENTRE

Our newly acquired facility offers an incredible space for storing many thousands of our quality cask whiskies. Situated along Scotland's Central Belt in Edinburgh, our vision for this building is to also create an unforgettable and engaging visitor centre, celebrating Scotch whisky's rich history. We also plan to include a diverse whisky shop, where you will be able to showcase your brand alongside a curated selection of other fascinating bottlings.

DANDANLEITH BOTTLING HALL

One of the more recent additions to our operations is Dandanleith Bottling Hall in the very heart of Speyside – Scotland's largest whisky producing region. Our casks are now transported and handled at this facility, increasing quality control across the entire bottling process.

COLEBURN DISTILLERY WHISKY WAREHOUSES

These Victorian dunnage warehouses provide an invaluable service to both Aceo and the Scotch whisky industry as a whole. Our Whisky Creations Team adhere to traditional storage techniques, unchanged for centuries, ensuring each and every cask is cared for and nurtured by hand.

ROYAL BRACKLA WAREHOUSES

As part of our growing number of sites, we now have ownership of the large cask storage warehouses at Royal Brackla Distillery in the Highland region of Scotland. This fully racked facility holds an impressive 40,000 casks, which means we can offer storage for our customers' diverse portfolios of casks.

PARKMORE DISTILLERY MANAGER'S HOUSE

Ideal for hosting events, blending workshops and social gatherings, this house is a true gem in the very heart of Speyside. These unique experiences help to build closer working relationships with our business, allowing a focused insight into how, where and why we source our outstanding Scotch whisky.

MURRAY McDAVID BOAT

Our 60ft traditional wooden boat serves as Murray McDavid's unique Scotch whisky vessel. Taking tours along Glasgow's River Clyde and further afield, we are able to host truly innovative whisky tastings and events aboard this charming boat. With 8 beds in the hull, guests also have the option to stay overnight on the boat.

DALLAS DHU DISTILLERY

In 2019, we became the proud owners of the legendary Dallas Dhu distillery. It ceased production in 1983, but we will soon be reigniting its stills and returning it to its former glory as a fully operational Scotch whisky distillery. In addition, we also have plans to implement a visitor centre which will take people on a journey through this prestigious distillery's vibrant past.

DALLAS DHU HOUSE

Dallas Dhu's striking late Victorian house is our fantastic property used for events and gatherings. Similar to our Parkmore House, Dallas Dhu's location, nestled within Speyside's gorgeous forests, is simply unmatched. Joining us for expertly led whisky tastings or specialised blending workshops allowed a fantastic insight into the process of whisky-making as well as strengthening our business relationship.
